

# SHAIHARYAAR AHMAD

SENIOR FRONTEND DEVELOPER · REACT / REACT NATIVE / FULL-STACK

+358-44-2485210 | shaiharyaar.ahmad@aalto.fi | Helsinki, Finland | [LinkedIn](#) | [GitHub](#)

## SUMMARY

Frontend Developer with 5+ years of experience building high-performance, user-centric web and mobile applications. Proficient in React, React Native, and Node.js, with proven ability to lead technical teams and ship impactful products — including a digital display solution deployed across 20,000+ devices. Currently pursuing a Master's in HCI at Aalto University.

## EXPERIENCE

### FRONTEND DEVELOPER

Dec 2024 – Present

**EWQ · Helsinki, Finland (Hybrid)**

- Contributed to flagship products: Queue Management Systems, Digital Displays, and ESL Labels.
- Directly impacted 20,000+ deployed displays through the Digital Displays initiative, driving a significant sales breakthrough.
- Co-designed and launched **SuperQueue** (new QMS) using React.js and Node.js; now live in 3 stores.
- Maintained legacy QMS running across hundreds of stores, ensuring reliability and continuity.
- Developed features for an internal/external Portal management platform.

### TECHNICAL TEAM LEAD

Sep 2021 – Nov 2024

**OneStream Live · Espoo, Finland (Remote)**

- Led frontend development across website, studio, and mobile apps for a live-streaming SaaS platform.
- Implemented WebSocket and WebRTC-based video streaming flows; built dynamic pre-defined video layouts.
- Collaborated with GStreamer authors and cross-functional teams, driving measurable quality improvements.
- Applied optimization techniques across the product stack, improving rendering performance and UX.

### SOFTWARE DEVELOPER

Feb 2021 – Aug 2021

**Saufik (Pvt) Limited · Islamabad, Pakistan**

- Led delivery of three bespoke React Native projects; shipped *GoParent* and *Calimatic Ed Tech* to production.
- Built real-time chat with Socket.io; integrated Stripe/Plaid payments and Firebase push notifications.

### SOFTWARE DEVELOPER

Jan 2020 – Jan 2021

**Raybyza Solar**

- Built a live data monitoring web application with WebSocket-driven, interactive data visualization UI.

## EDUCATION

### Master's in Human-Computer Interaction (HCI)

Aalto University, Espoo, Finland

September 2023 – Present
